Maximum relief – individually adapted

For people in need of care, long periods of sitting can quickly become uncomfortable – pain and pressure points are all too common. Especially for those who, due to illness or age, spend much of their lives in bed, this can make everyday life much harder.

The MK Nuage System provides a customized solution.

Thanks to its adaptable pinhole-latex cushioning, the system gently embraces the body's contours and distributes pressure evenly, reducing pain and pressure points. With ergonomic seat tilting and backrest adjustment, it promotes a relaxed posture and added stability. The result: greater sitting comfort, more quality of life and closeness – for both the person in care and the caregiver.

Who benefits from the MK Nuage System?

Thanks to optimal positioning, users can sit comfortably for longer, which reduces transfers and relieves the caregiving staff. Whether in a nursing home, in a clinic or at home – the MK Nuage System adapts to individual needs and ensures greater comfort and quality of life.

Caregivers:

Ergonomic support, that protects the back and preserves energy for what truly matters – caring for and ensuring the well-being of patients.

Care recipients:

More comfort, more safety and the opportunity to reconnect with everyday life.

Relatives:

Simple to use – making caregiving easier for everyone.

MK Nuage at a glance:

Flexible in use:

With its individual adjustability, the MK Nuage System is the perfect solution for every situation – in nursing homes, hospitals or at home.

Making care easier:

With tool-free adjustment and back-friendly transfers, caregiving becomes not only easier but also noticeably less burdensome for everyone involved.

More safety:

The ergonomic seat and backrest adjustment provide greater stability, reduce restlessness and ensure a sense of safety.

Maximum comfort:

The pinhole-latex cushioning adapts to the body, provides an optimal pressure relief and helps prevent pain.

Coverage of costs:

Due to its advantageous pricing, there is a strong chance of reimbursement when a medical prescription and approval are provided.

Hygienic & easy to clean:

All materials are effortlessly cleanable and disinfectable – making everyday life not only more comfortable, but also reliably hygienic.
